Sprint Plan 2

Foodseek

Sprint Completion Date: November 01, 2022

Goal: The goals of this sprint were to have a user be able to accept a listing in the area, add location services so that users could see food listings in their area, and to have a vendor be able to upload a food listing. Implement food listing features, implement corresponding UI features.

Task listings:
User Story 1: As a Seeker, I want to see current listings in the area so that I can find food that is close to me.
...
Favorite Button UI - (3 hours)
Developing Foodseek Map UI - (3 hours)
Developing/Styling Login UI - (7 hours)
Developing/Styling Signup UI - (6 hours)
Foodseek List Component - (6 hours)

Total for user story 1: 25 hours

User Story 2: As a general user of the app, I want my information to be recoverable so that I don't get frustrated at needing to contact support.

Develop logic to make sure the account wants to reset the password (7 hours)
Develop logic to reset the password (7 hours)
Rehash and save the new password in the database (3 hours)
Develop UI pages for resetting the password (3 hours)

Total for user story 2: 20 hours
...
User Story 3: As a Seeker, I want to accept a listing in order to reserve the food for myself and not have anyone else come and pick it up before I do.

Link the project with the SQL database (6 hours)
User vs Vendor -- Separation of Accounts and Privileges (4 hours)
Server-to-App Response Logic -- (5 hours)

Total for user story 3: 15 hours

Team roles:
Fernando Duarte: Developer, Front-End, Planner
Nisse Spicer: Developer, Front-End, Planner
